# Dart Installation

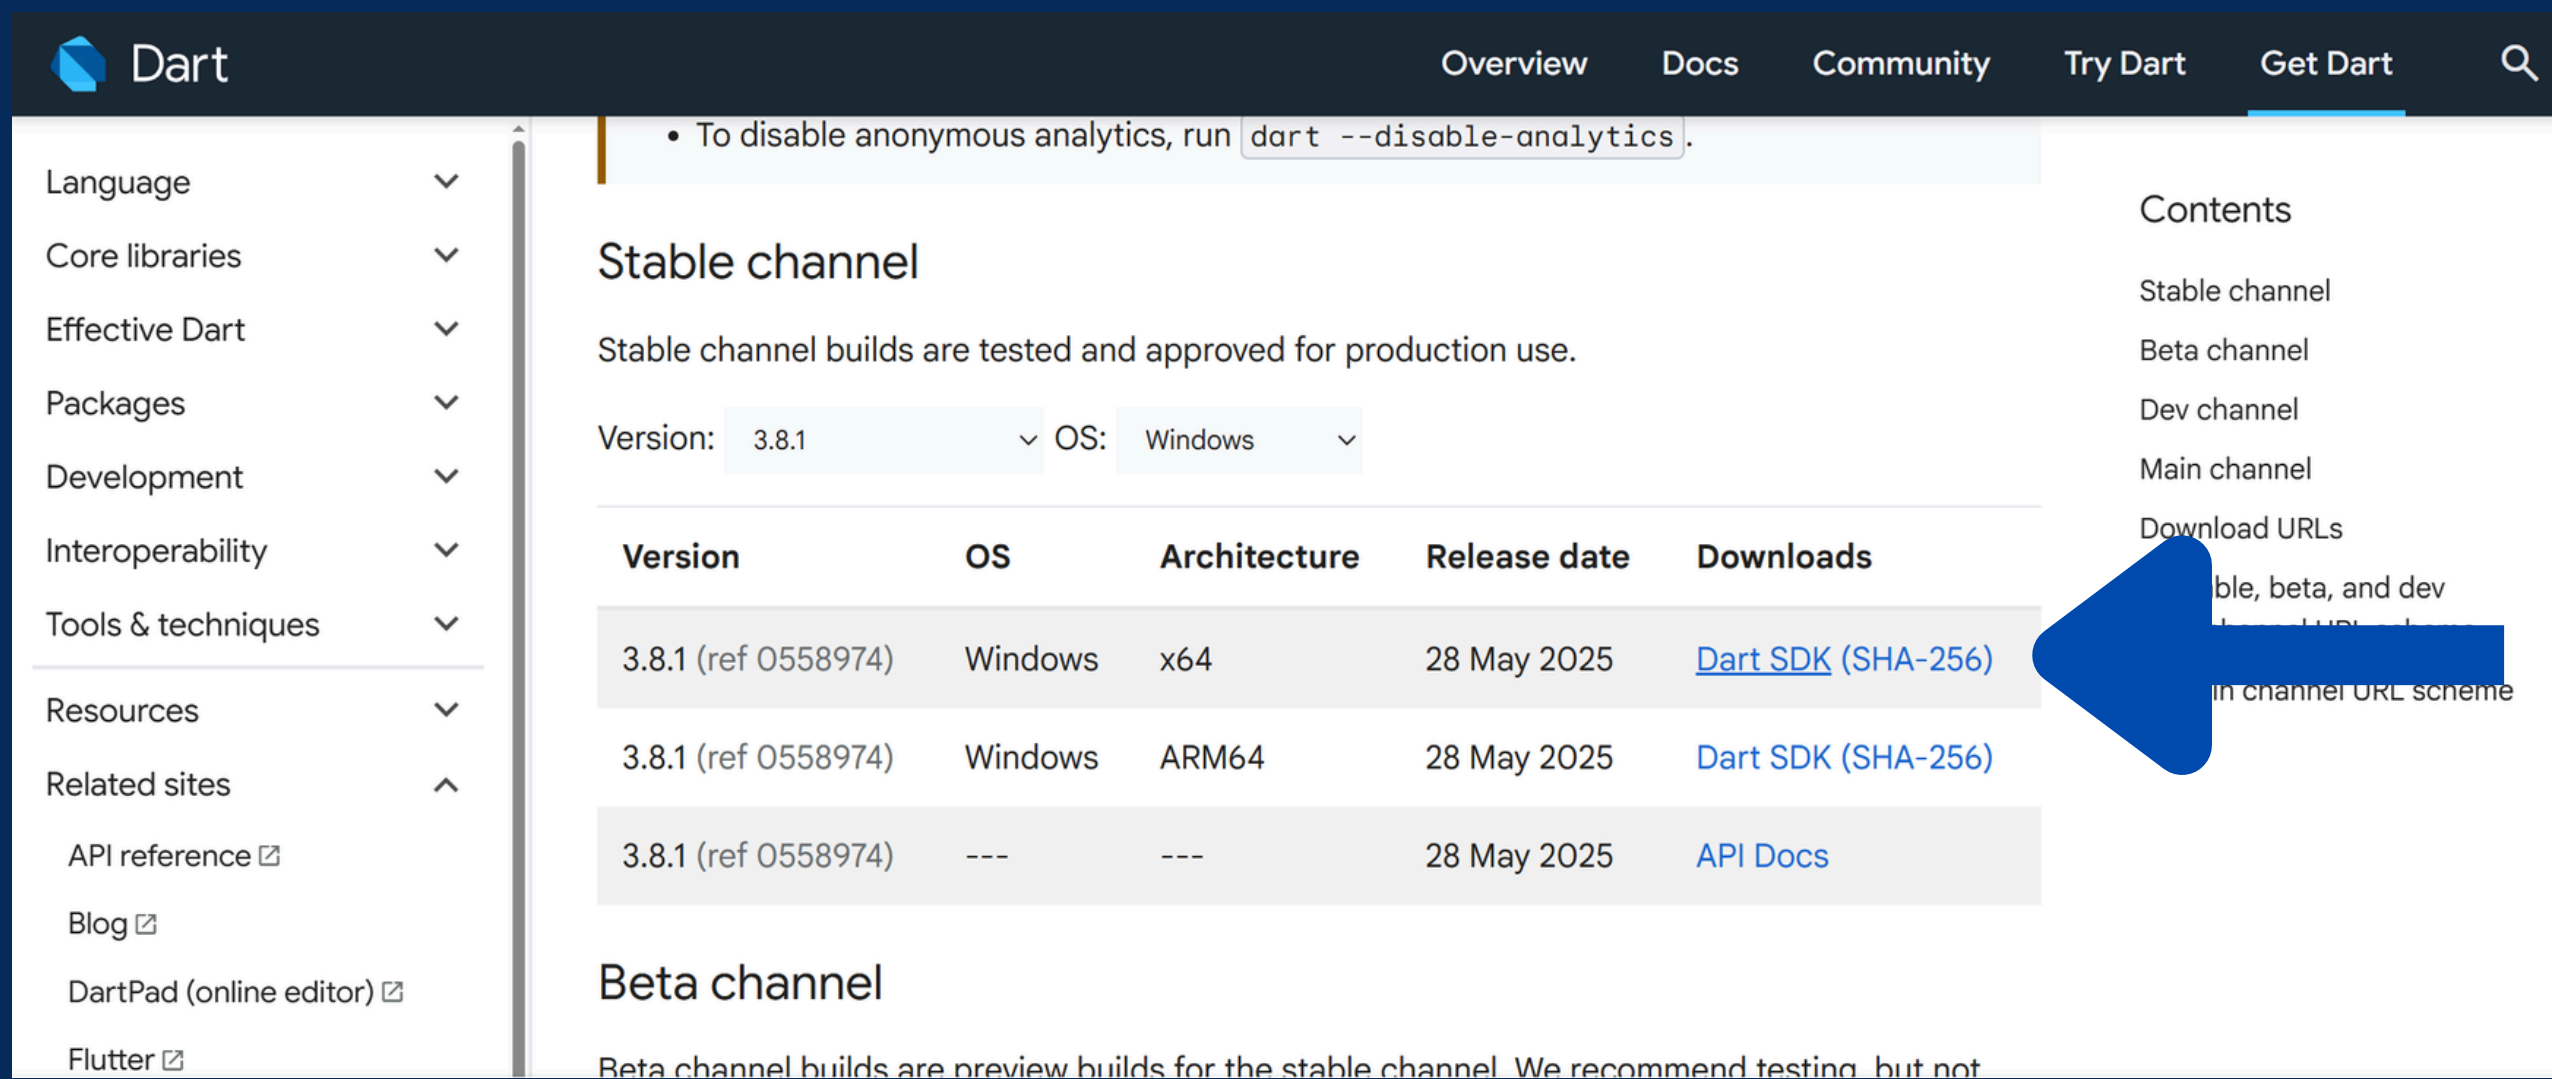

## Step-by-Step

1. Open Google and Search for  
“dart sdk downloads”  
→ Visit 2<sup>nd</sup> Link

@coding\_sha

## 2. Scroll Down & Download Latest Version

The screenshot shows the Dart SDK download page. The 'Get Dart' tab is selected. The 'Stable channel' section is active, showing a table of versions. A blue arrow points to the 'Dart SDK (SHA-256)' link in the first row of the table.

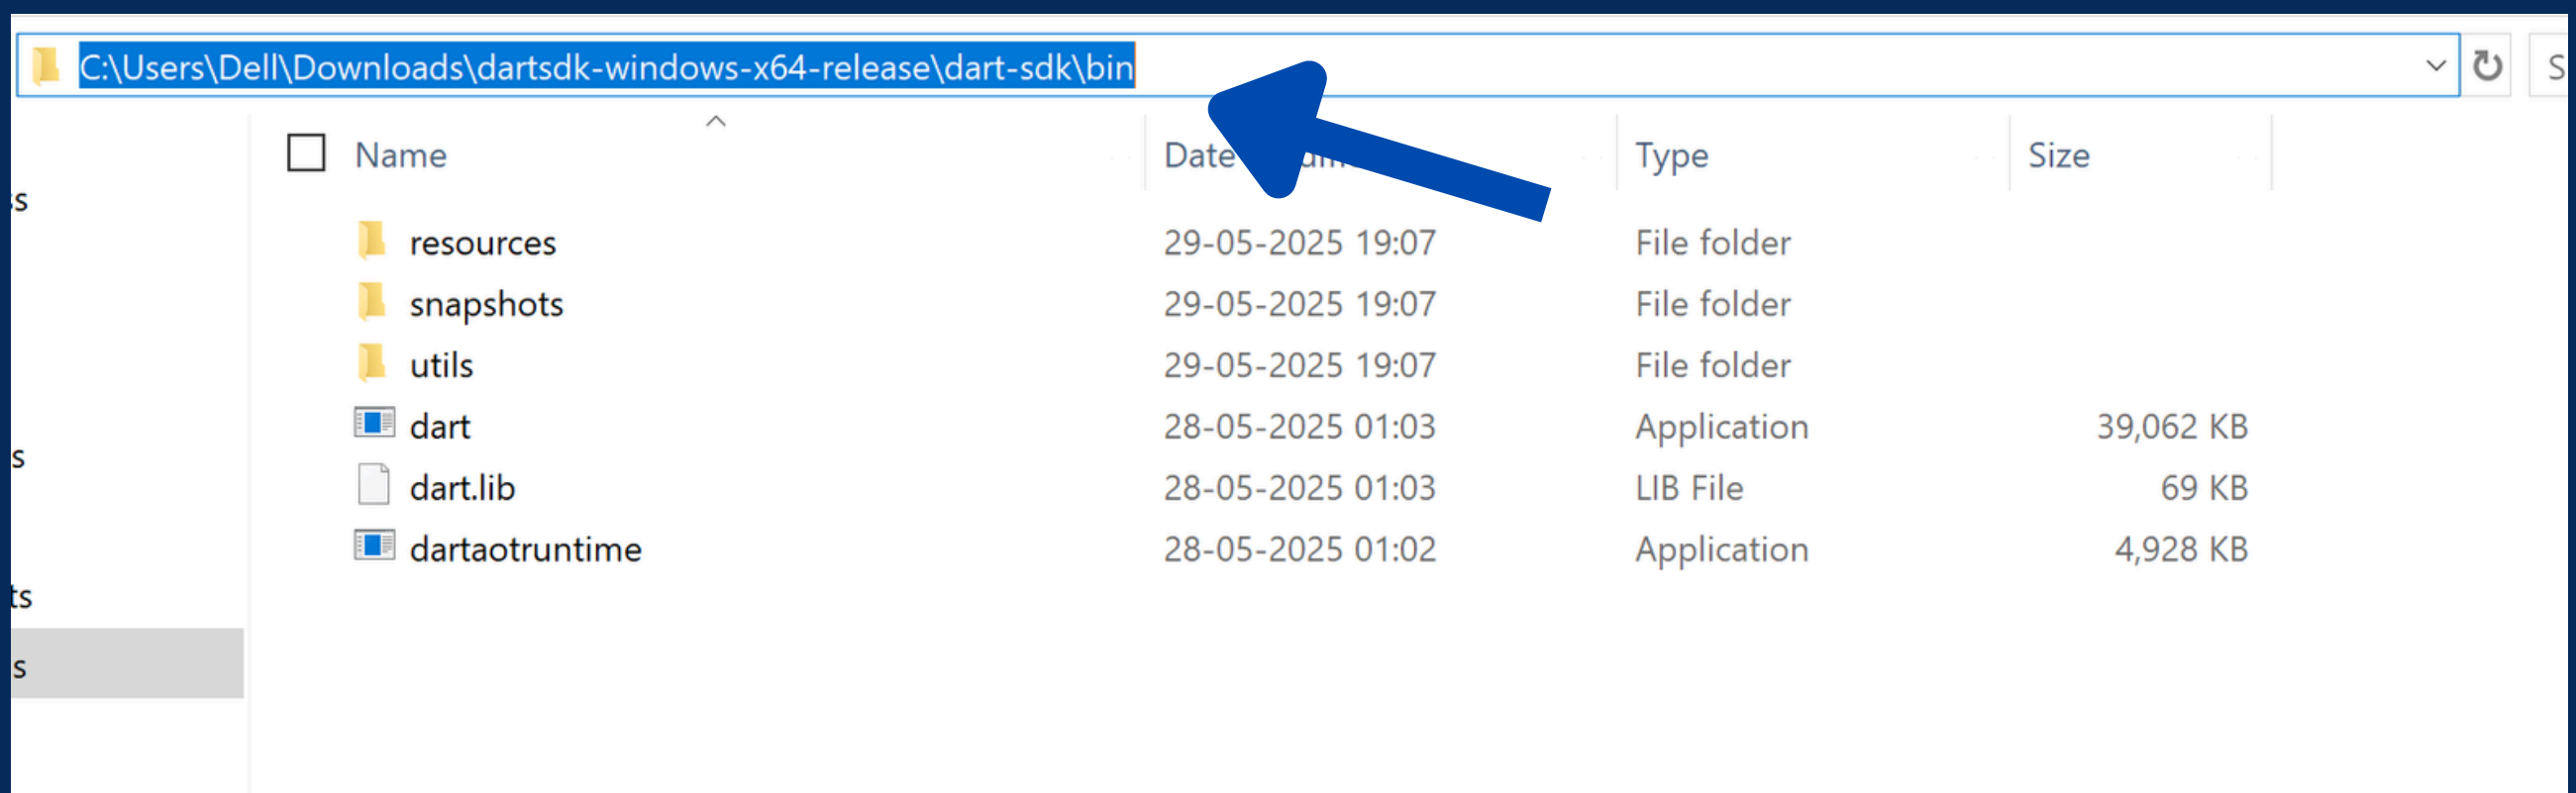

Version	OS	Architecture	Release date	Downloads
3.8.1 (ref 0558974)	Windows	x64	28 May 2025	<a href="#">Dart SDK (SHA-256)</a>
3.8.1 (ref 0558974)	Windows	ARM64	28 May 2025	<a href="#">Dart SDK (SHA-256)</a>
3.8.1 (ref 0558974)	---	---	28 May 2025	<a href="#">API Docs</a>

## 3. Now go to File Explorer & Unzip the folder

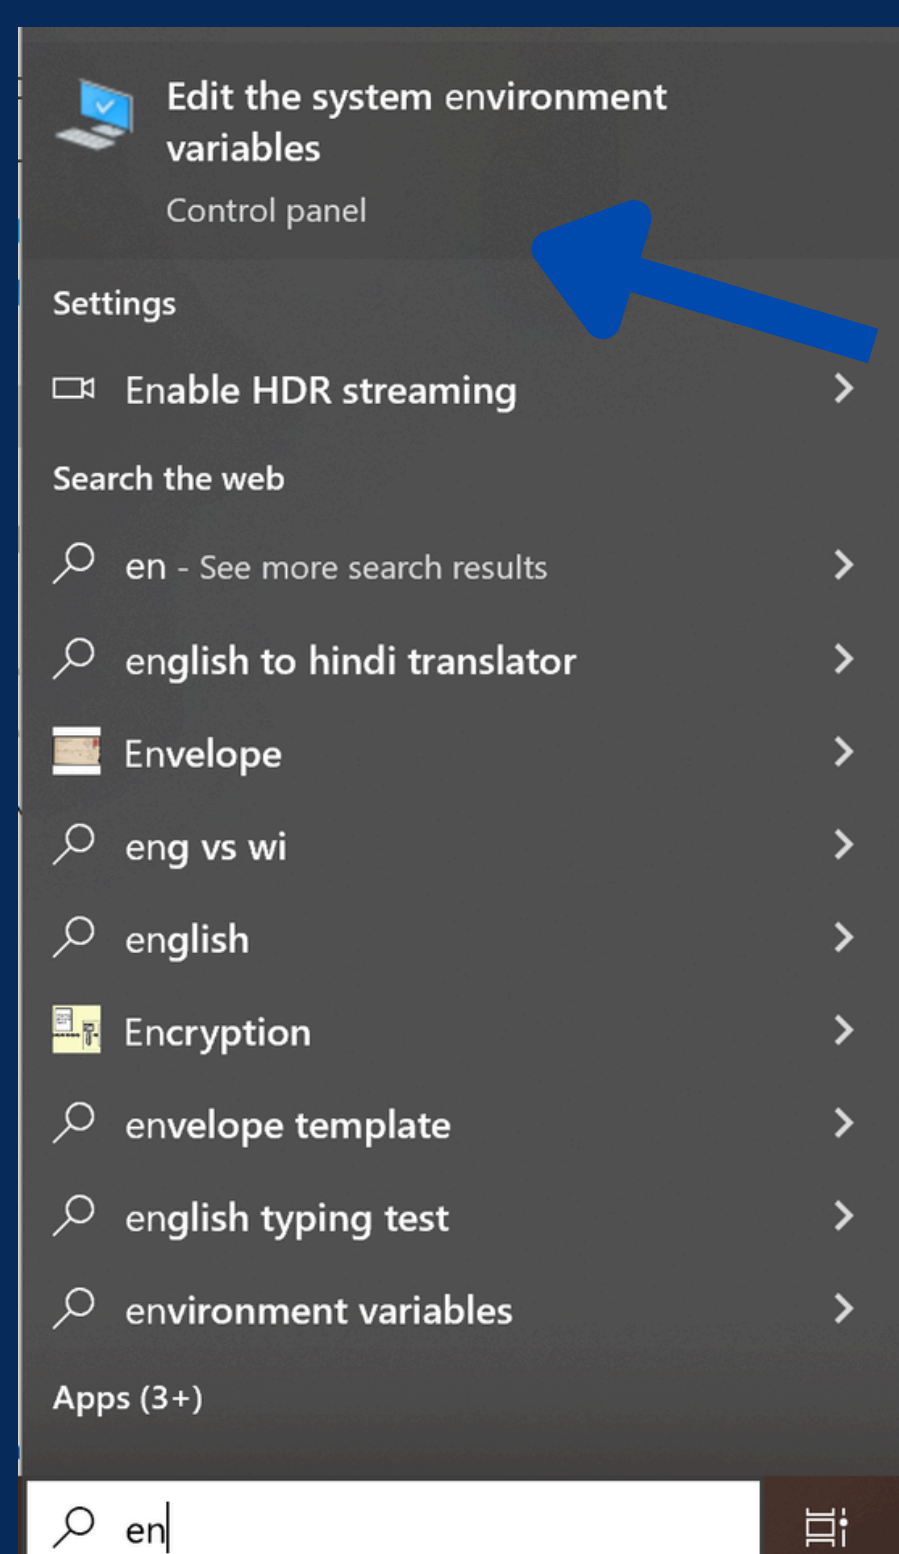

## 4. Then follow following path: open folder → dart-sdk → bin

@coding\_sha

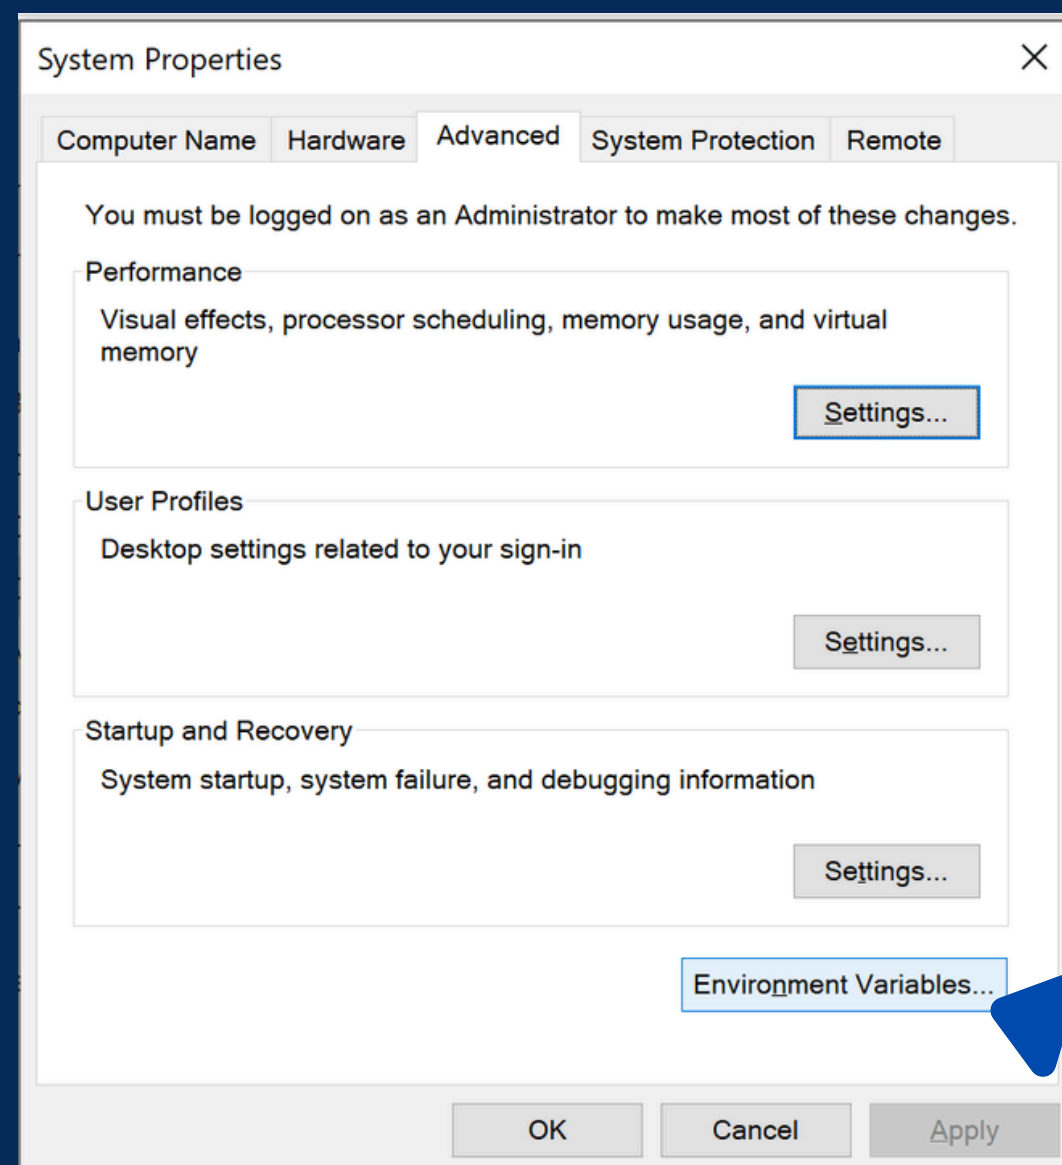

## 5. Now Copy it's path as shown below

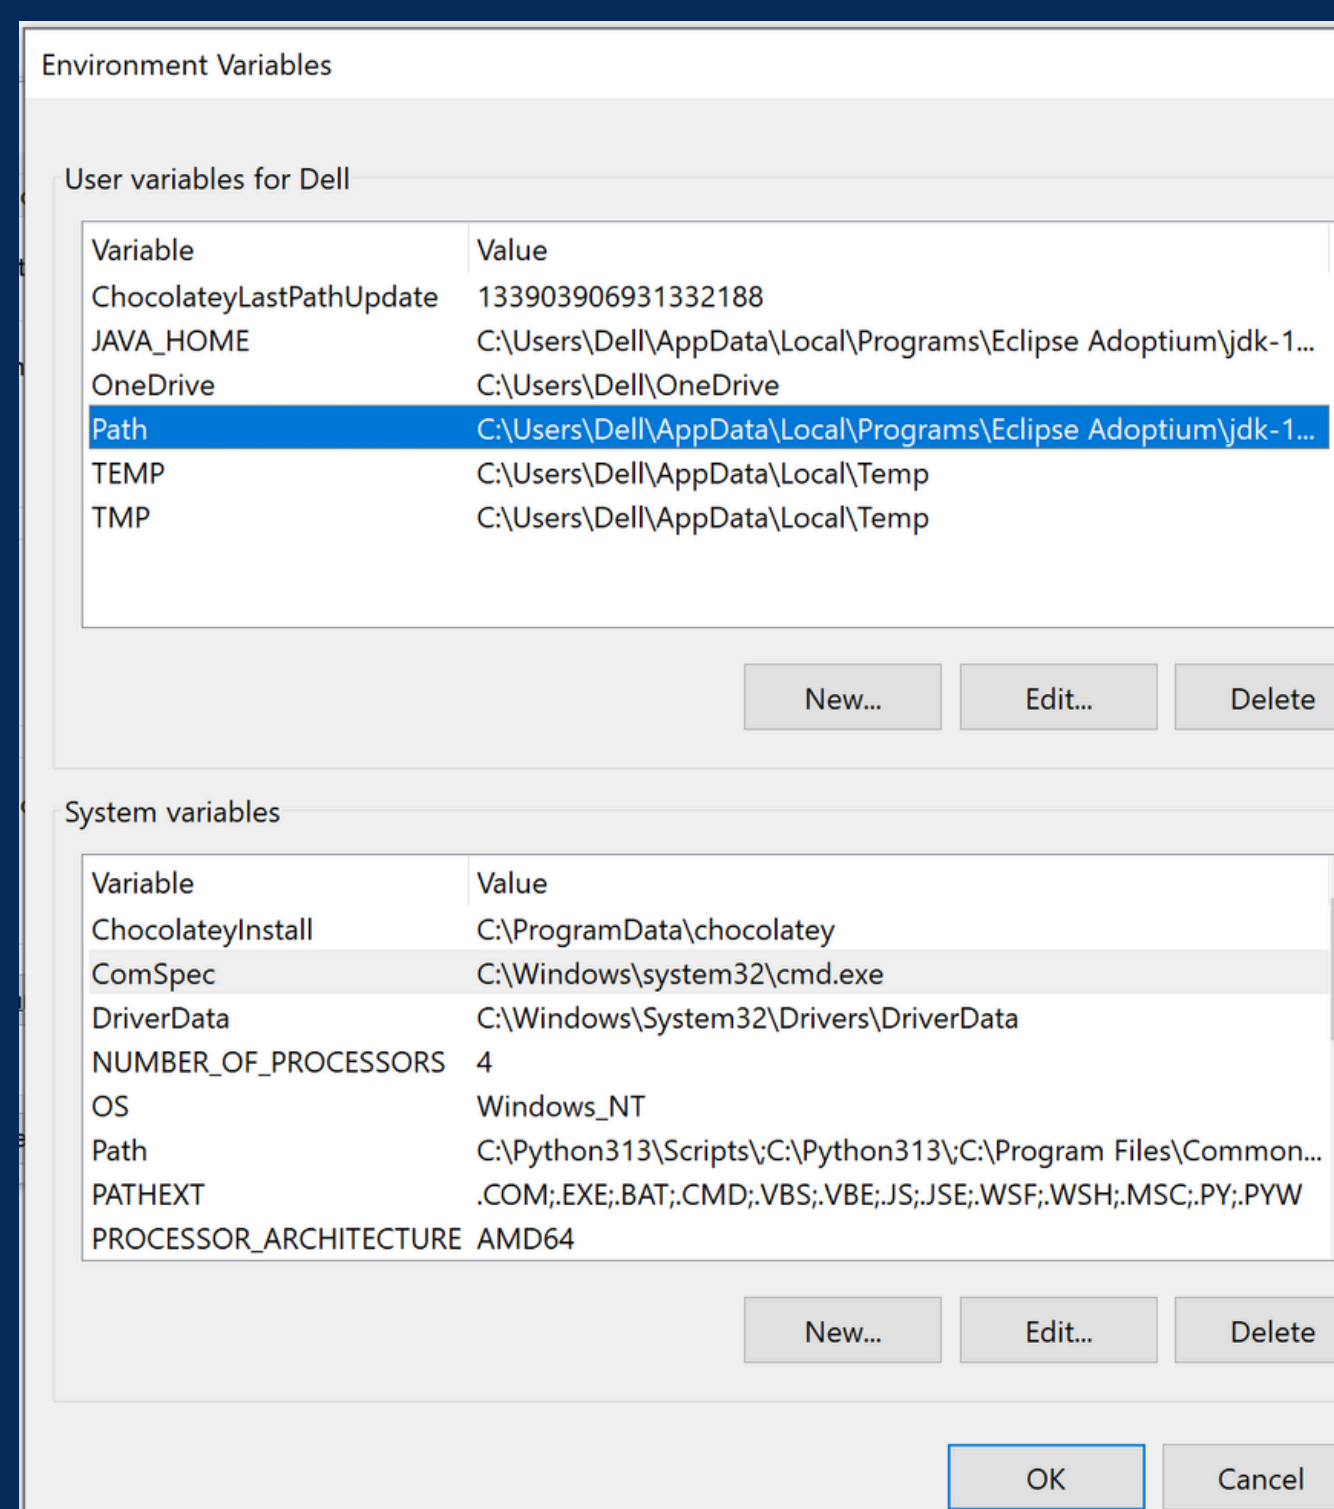

## 6. Go to search bar & search for “Environment variables”

## 7. Open and click on 'Environment Variables'

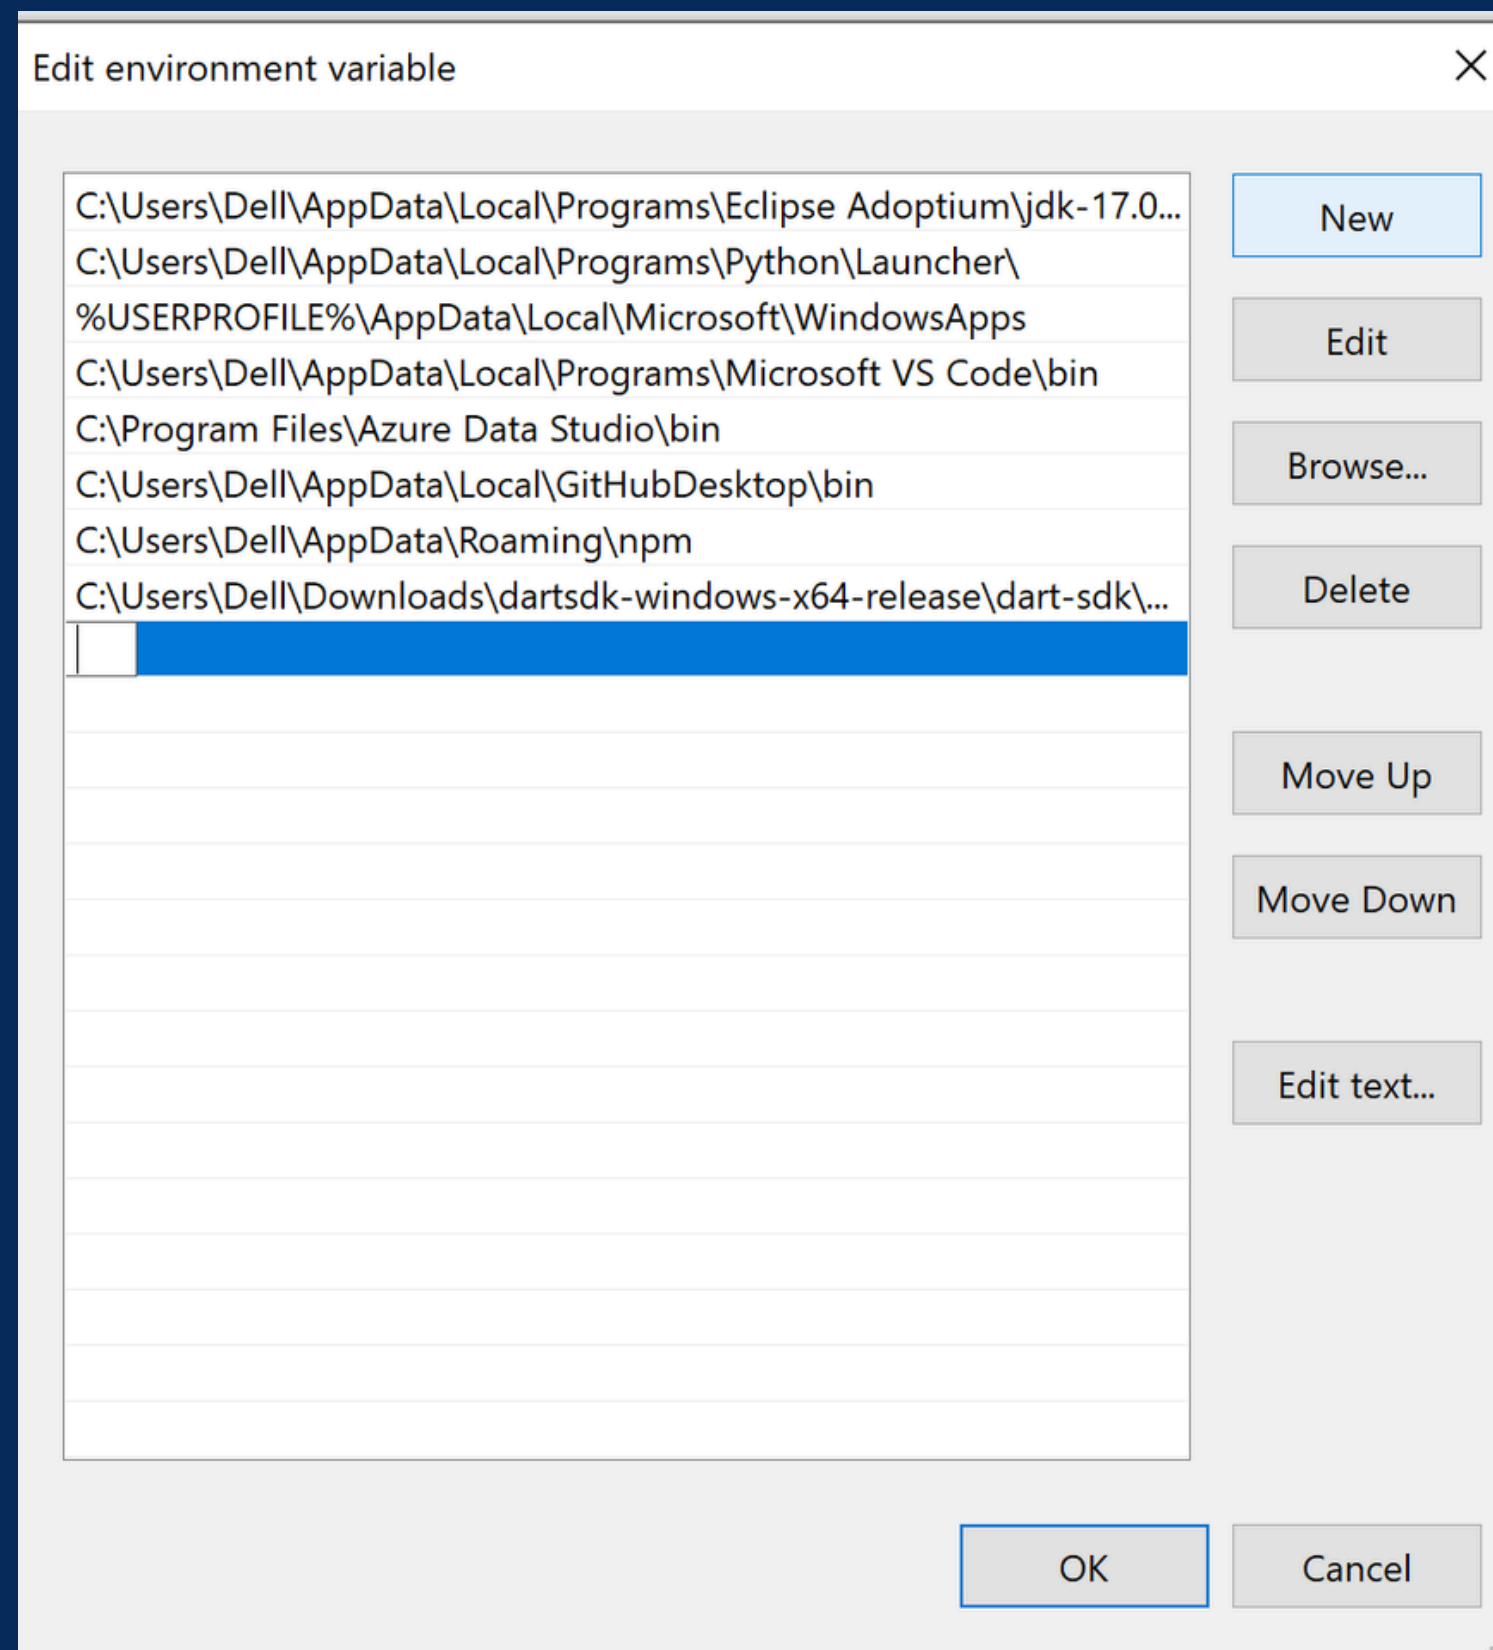

## 8. Select Path

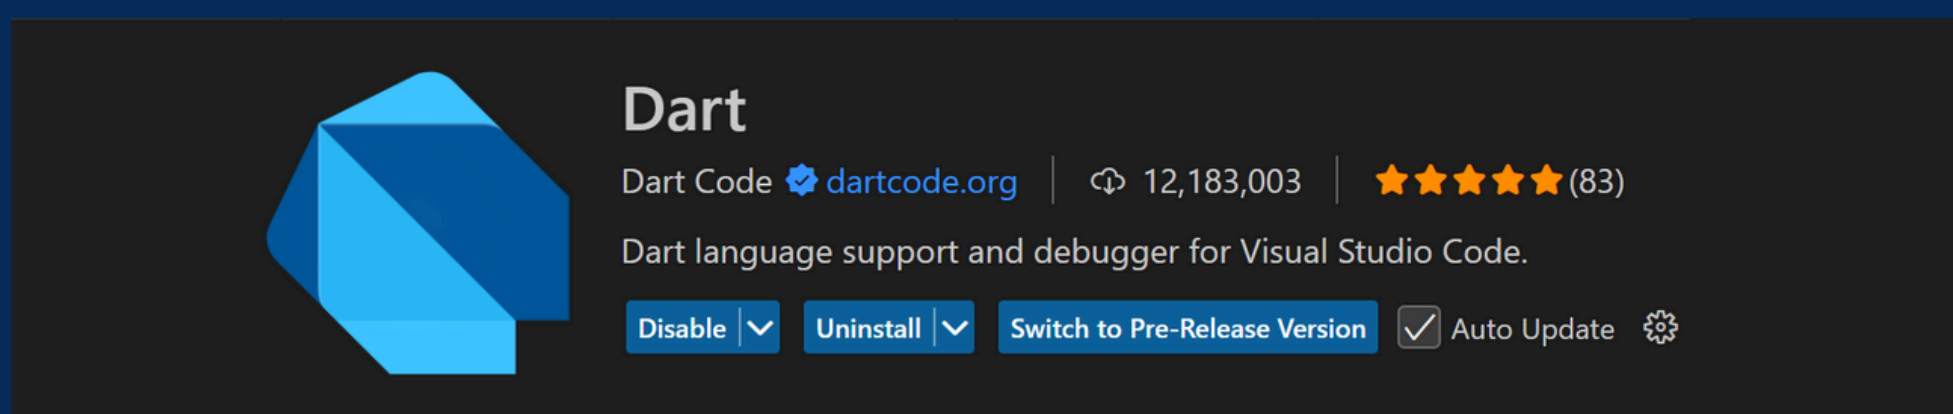

@coding\_sha

9. Click on “New” & Paste the Path you Copied earlier.

10. Click on OK

11. Then Install Dart Extension on VS Code

YAY!! ✨✨ ALL SET
